

Contact Data Verifier

Quick Guide

NCDV 13.00 for Microsoft Dynamics 365 Business Central

Overview

Contact Data Verifier is the correction and review extension for Microsoft Dynamics 365 Business Central.

The correction and review features make it easier and faster to enter records (Customers, Vendors, Contacts and Employees) into your Microsoft Dynamics 365 Business Central. Contact Data Verifier is your interface between Microsoft Dynamics 365 Business Central and the “magic data machine” from data.mill GmbH.

Setup

You must first set up the basic Information, before you can use the Contact Data Verifier. The setup must be performed in the “Contact Data Verifier Setup”.

EDIT - CONTACT DATA VERIFIER SETUP

Request Log Entries

DATE AND TIME	USER ID	URL	HTTP RESPONSE STATUS CODE	TABLE CAPTION	FIELD CAPTION
9/4/2018 12:54 PM	...	https://gateway.methis.at/user/...	200	Contact Data Verifier Setup	_
8/31/2018 4:19 PM	...	https://api.methis.at/address/s...	200	Customer	Address

Within Microsoft Dynamics 365 Business Central, search for “Contact Data Verifier Setup” and select “Contact Data Verifier Setup” to open the window.

Setup – Registration

Contact Data Verifier requires a registration.

Click on “What’s New?” within the “Contact Data Verifier Setup” window.

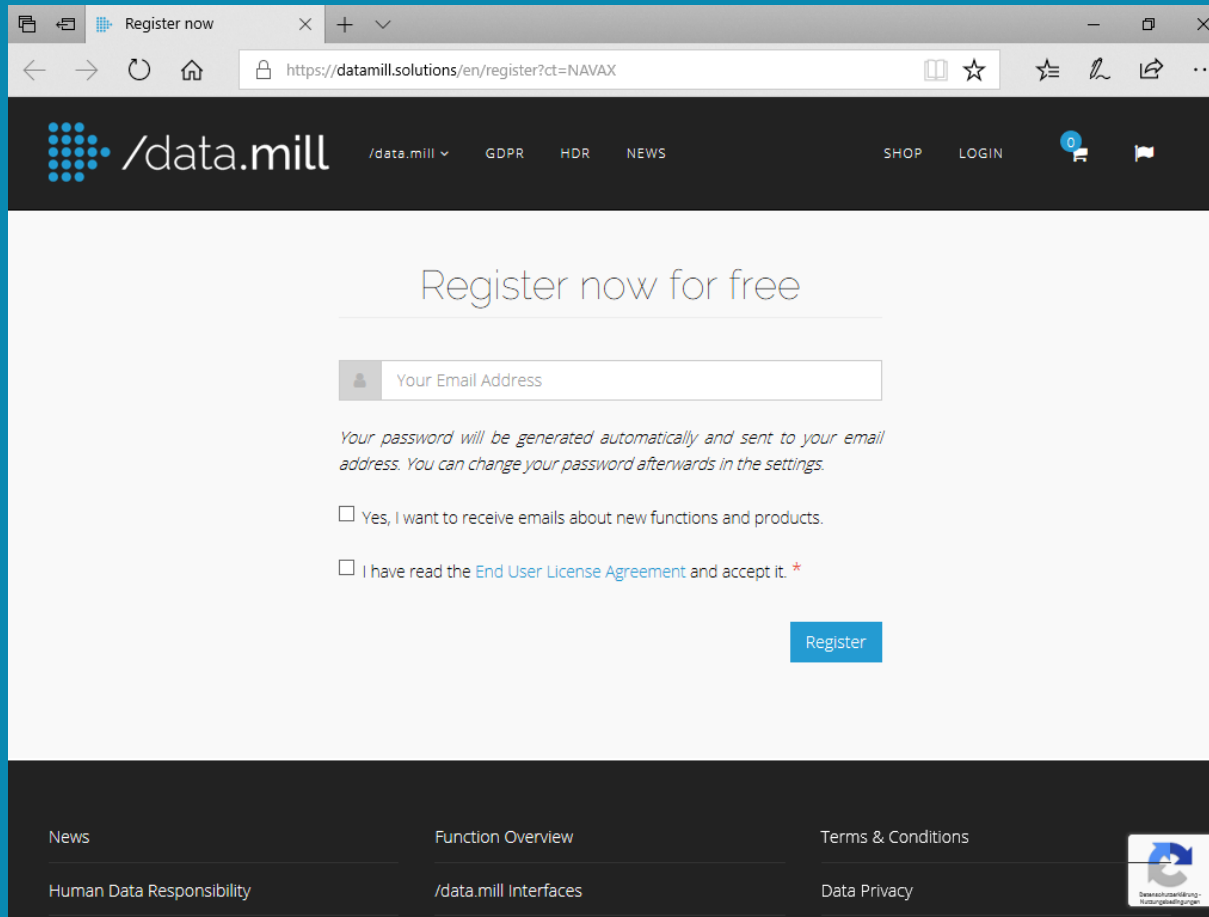

A browser window will be opened.

Click on “Send Registration Request” to send an E-Mail with your request.

In the next few days you will receive an E-Mail with further information.

Setup – data.mill Registration

Contact Data Verifier use a service from data.mill. Therefore, an additional registration is required.

The screenshot shows a web browser window with the URL <https://datamill.solutions/en/register?ct=NAVAX>. The page title is "Register now" and the main heading is "Register now for free". The registration form includes a text input field for "Your Email Address", a note stating "Your password will be generated automatically and sent to your email address. You can change your password afterwards in the settings.", and two checkboxes: "Yes, I want to receive emails about new functions and products." and "I have read the [End User License Agreement](#) and accept it. *". A blue "Register" button is located at the bottom right of the form. The footer contains links for "News", "Function Overview", "Terms & Conditions", "Human Data Responsibility", "/data.mill Interfaces", and "Data Privacy". A small logo for "Datenschutzbeauftragter" is also visible in the bottom right corner.

Click on “data.mill Registration” within the “Contact Data Verifier Setup” window.

On the sign-up page from data.mill, enter the Email Address for your company’s subscription and then complete the sign-up process as instructed by data.mill.

After that, data.mill sends a registration confirmation via Email. The Email contains the login, password and a link to the login page. You will also get 1000 credits for signing up.

Click on “License keys” in the data.mill page to create a license key.

Your company is now signed up by data.mill. Proceed to enter the user name, password etc. in the related setup fields in the “Contact Data Verifier Setup” window.

Customer Card

Contact Data Verifier is integrated in your Customer, Vendor, Contact and Employee Card and supports you preparing and processing personal data.

The screenshot shows the Dynamics 365 Customer Card interface. The browser address bar indicates the URL: <https://agsrvd0003.westeurope.cloudapp.azure.com/nav/?bookmark=23%3bEgAAAAJ7%2fc>. The page title is "NEW - CUSTOMER CARD" and the breadcrumb is "Customers > D00010 · John Doe". The interface includes a navigation bar with tabs for HOME, ACTIONS, NAVIGATE, REPORT, and MANAGE. The ACTIONS tab is active, showing various icons for document management and approval processes. The main content area is divided into sections: "General" and "Address & Contact".

General		Show more	
Name	John Doe	Blocked	
Balance (LCY)	0.00	Total Sales	0.00
Balance Due (LCY)	0.00	Costs (LCY)	0.00
Credit Limit (LCY)	0.00		

Address & Contact		Show more	
ADDRESS		CONTACT	
Address	Rue de Rivoli 184	Primary Contact Code	
Address 2		Contact Name	
Post Code	75001	Phone No.	
City	Paris	Email	
Country/Region Code	FRANCE	Home Page	

Contact Data Verifier is integrated in the fields Name, Name 2, E-Mail, Phone No., Telex No., Fax No. Address, Address 2, Post Code, City, County and Country/Region Code.

Function overview: Search and extend postal addresses, check the spelling of email addresses and verify its mail server, format phone numbers and verify mobile numbers, recognize the gender based on the first name, convert strings (case sensitivity, capitalization, ...), convert ISO 3166.1 country codes.
